Process To Connect With Airbnb

A new customer

You need an Airbnb host account in order to connect to it. To create one, go to the [Airbnb website](#) and set up your host account and Listings with them before proceeding.

An existing customer on the channel

Connection can be done from the channel manager side only. No need to configure any connectivity provider on Airbnb Extranet. You will be redirected to the Airbnb page upon connection.

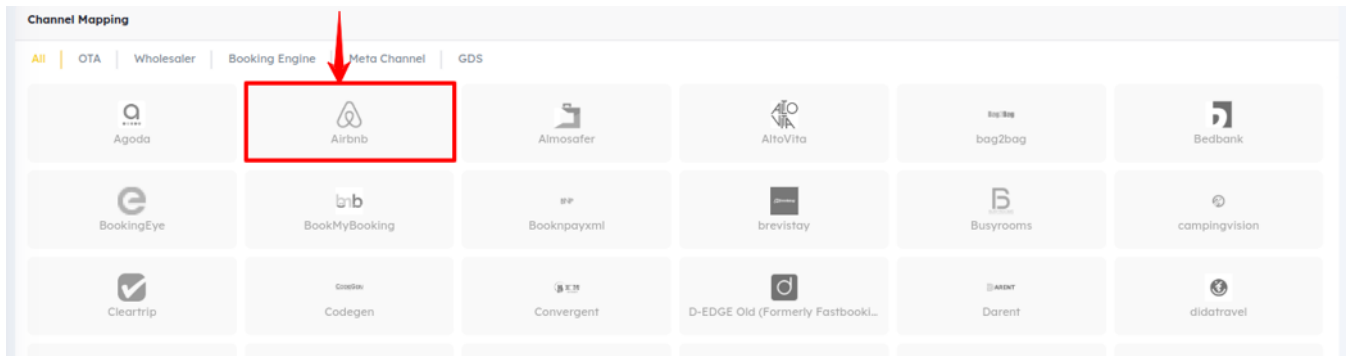

- **Please note:** If you want to create new listings from the channel manager on your Airbnb account, that is also possible with the channel manager.

Credentials

Airbnb provides the Host Token Number required for mapping.

Channel Connection Setup

In "Channel Mapping" Module > Select Airbnb

Setup Credential

Channel Password

☒ Generate Client ID ☐ Mapped Client ID

Host Token Number*

Connection Name

Commission*
N/A

Currency*
INR India Rupees

Default Multiplier*
1

Default Surcharge*
0

Generate Client ID: For New connection.

Mapped Client ID: To link mapping to an Airbnb credential that is already setup in Channel Manager.

Host Token Number: **step 1:** Click on icon(link) to get connected with Airbnb.
step 2: Enter host token number copied from airbnb page.

Connection Name: Use to give a name to your connection to make it easier for searching the connected channel account.

Default Multiplier: Use to set the rate multiplication factor applicable for all room types.

Default Surcharge: Use to have surcharge applied on all the room types.

Commission: Add your commission details as per Travelclick.

Currency: Property currency Should be the same as set up in Airbnb.

After you log in/ sign up, you will be redirected to the authorisation screen

Connect Airbnb to OTASwitch

On your behalf, the application OTASwitch would like to:

	Access your first name, profile picture, last name, email address
	Access and modify your reservations
	Access your payment information
	Access and modify your listing information like name, address, descriptions and photos
	Access and modify your listing calendars
	Access and respond your messages
	Access and modify your listing registrations
	Access and modify your reviews

Allow

Deny

Click on Allow to approve the connection. After that Token Id will be generated.

Host token number

16cnu  ehujtk

Thank you

Copy the generated host token number and return to the Airbnb set up page.

Enter the generated host token number in the host token number field and click on Next for the mapping and connection process.

Next > Mapping

Upon mapping the screen, you can see the list of Airbnb listings along with channel manager Room Type/Rate Plan.

Rate Plan Mapping			
Listing-Rate ①	Listing Name ②	Rate Name ③	Actions ④
(manageable) One Bedroom Apartment-Standard rate 22392 - Default	Listing Standard Room (STD) ▾	Rate EP (EP) ▾	MAP
(manageable) Two Bedroom Z&L and Z&L-Standard rate 22393 - Default	Listing ▾	Rate ▾	MAP
(manageable) Two bed - double and triple-Standard rate 22578 - Default	Listing ▾	Rate ▾	MAP
(manageable) Two beds - Double and Z&L-Standard rate 22579 - Default	Listing ▾	Rate ▾	MAP
(manageable) One bedroom linked-Standard rate 22580 - Default	Listing ▾	Rate ▾	MAP
(manageable) One Bedroom Apartment - 3 Single Beds-Standard rate 23108 - Default	Listing ▾	Rate ▾	MAP

1. **OTA Room Type and Rate Plan Details** - Select Listing to map.
2. **PMS Room Type** - Select room type(s) to be map. (This room type is set up in channel manager).
3. **PMS Rate Plan** - Select rate plan(s) to map (This rate plan is set up in channel manager).
4. **MAP** - Click on MAP and It will ask to set up Mapping configuration for specific rate plan.

In channel mapping, the status will remain as Ready for Review until Airbnb approves the listing. Please allow up to 1-3 working days.

Listing is not visible or bookable until the listing has been approved by Airbnb.

In the Airbnb extranet, the sync status for the listing will be In Review until approved

Airbnb Room-Rate	Zenya Room Name	Zenya Rate Name	Actions
Anthem408 Default (1401587718633830509)	Anthem408 (277164)	Default (171)	Sync All ☒ Bookable
Anthem419_Default (1401587718633830509)	Anthem419 (277174)	Default (171)	Sync All ☐ Bookable

Create New Listing

1. Go to the mapping of Airbnb, you will see the new listing option

Airbnb Room-Rate	Zenya Room Name	Zenya Rate Name	Actions
Luxury Living in West Midtown (44011521)	Room	Rate	MAP
Quiet Luxury in Heart of Buckhead (43156465)	Room	Rate	MAP
(43156422)	Room	Rate	MAP

- There are 3 tabs to complete: Profile, Room & Rates Info, Availability and Booking Rule
- Where information is already available in the extranet, this will be auto-populated in the Field.
- Complete wizard and submit.

Adding New Room And / Or Rate Plan On The Channel?

Ensure you map the new room or rate plan in the channel manager. This will ensure you can manage inventory and rates plus bookings will be delivered seamlessly to your property management system.

Add/Map A New Room Type

1. Existing Airbnb listing

2. New Airbnb listing

- You can proceed directly from the channel set up page
- If room is already mapped to an Airbnb, you can see the mapping details.
- If room is not linked to an Airbnb, mapping details will not be displayed.

STANDARD ROOM (STD)	MAP
EP (EP) OTA Rateplan: One Bedroom Apartment-Standard rate Pricing Model: Occupancy Based	UNMAP
4BED PREMIUM MUDHOUSE 1 FLOOR (2)	MAP
4BED PREMIUM MUDHOUSE 1 FLOOR (3)	MAP

- Click on 'Map' to map new room type
- You will see below options

4BED PREMIUM MUDHOUSE 1 FLOOR (2)

PROPERTY/LOCATION

[LINK TO NEW LOCATION](#)

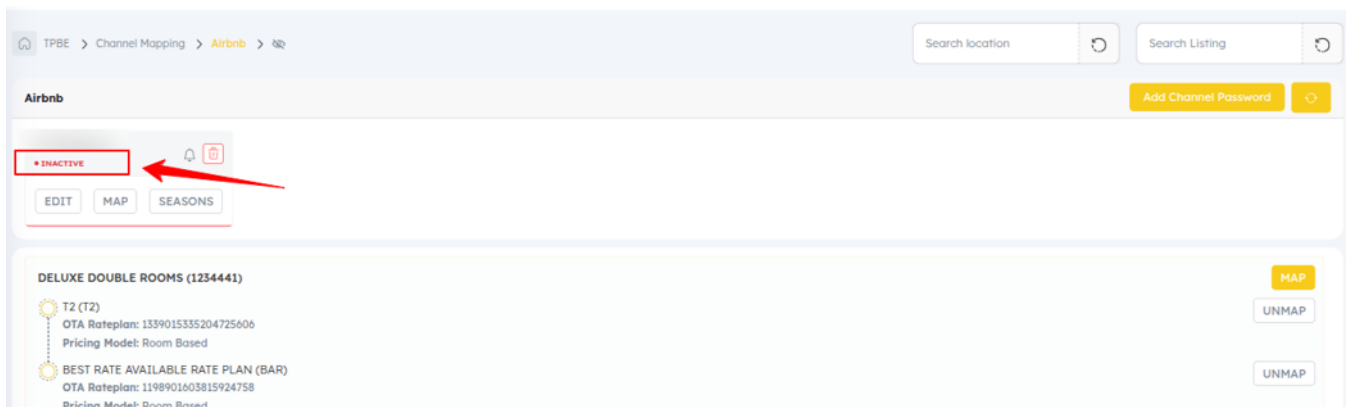

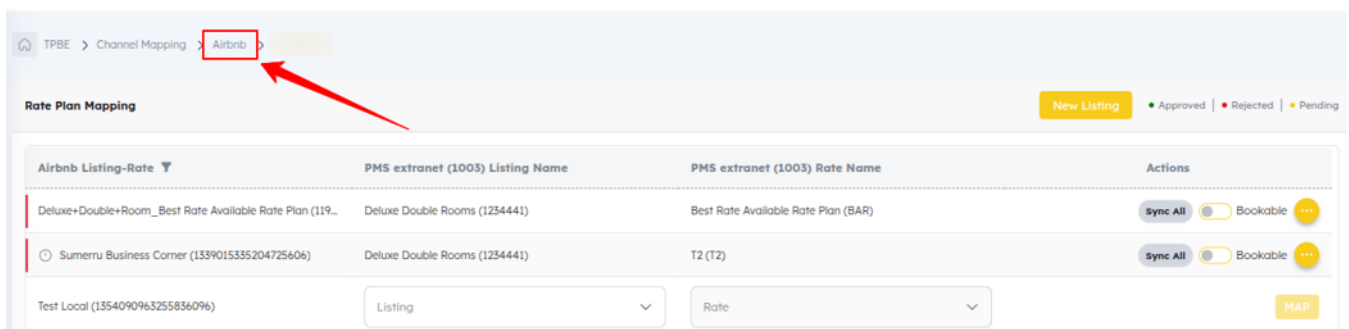

☐ 123456

- **Existing ID:** To map the room to an existing Airbnb property ID (Already set up in channel manager), Select the Airbnb property ID (It is possible to have multiple)
- **New Listing ID:** If you want to connect multiple Airbnb channels ID under on property > Click on 'Link To New Location ID' > proceed as per normal OR under channel connection module >>

click on Airbnb >> Click on **Add Channel Password** >> Add new Airbnb ID details and proceed for the mapping.

Important > Remember To Activate Connection

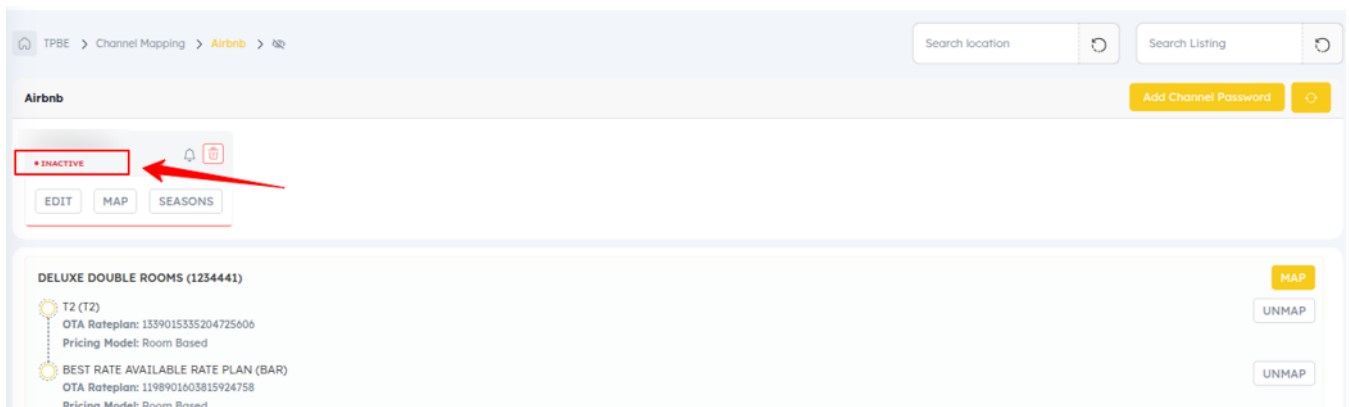

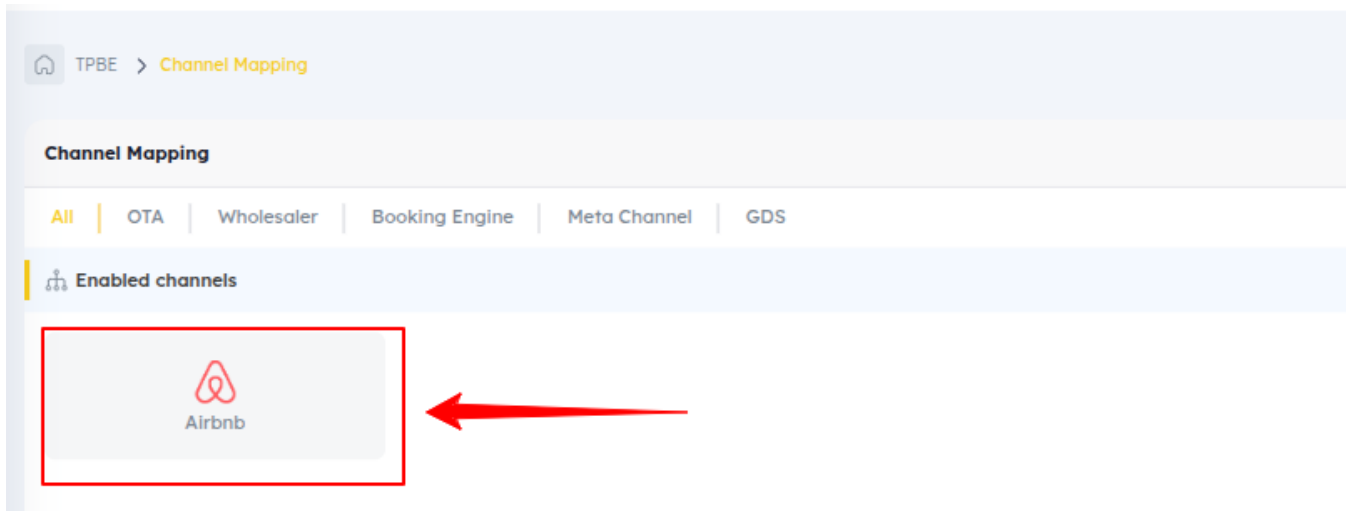

Once the mapping is completed, you need to activate connection. Return to channel connection details module > change status of channel to **ACTIVE** and save. This action will automatically trigger a full update to channel. Please refer to the screenshot below.

Click on INACTIVE to **Activate** the channel

Alternatively, go to 'Channel Mapping' > click on Airbnb

Click on 'Inactive' > Change status to **Active** > Save

Select the Su property which is already connected

Cancel Next

Please Note:- Su property, which you want to connect, needs to be in the same chain ID if you want to connect existing Airbnb account.

Tips for Property- Content:

- **Description:** You need to describe your property and what's unique about it. Try to write your Airbnb description as though you're describing your property to a friend you'll capture an informal yet excited tone that will draw your reader in. Just keep it consistent throughout.
- **Images:** High resolution photos look best, we recommend 4200 × 2700 px @300dpi. Properties with 15 or more photos tend to perform better and Airbnb guests are not only looking for photos of the listing, but of the neighborhood and

local attractions.

Note: Do not put watermarks, logos or text on top of your images. Property: 10 or more pictures

- Room Type: 5 or more pictures, including at least 1 picture of the bathroom.
- You will have the opportunity to write captions for your images by filling in the Image Label section in STAAH.

Cancellation Policies:

Don't forget to choose your cancellation policies. Please note that your fee will vary depending on the policy you choose to apply (see below for more details).

Airbnb's cancellation policies:-

- **3% host fees for the following cancellation policies:**

1. Flexible: Full refund 1 day prior to arrival (non-refundable if canceled on the day of check-in).
2. Moderate: Full refund 5 days prior to arrival (non-refundable if canceled within 5 days).
3. Strict: 50% refund up to 1 week before arrival (non-refundable if canceled within 7 days).

With those 3 cancellation policies, you get paid 24 hours after the guests check-in.

- **5% host fees for the following cancellation policies:**

1. Super strict 30: 50% refund up to 30 days prior to arrival.
2. Super strict 60: 50% refund up to 60 days prior to arrival.

With those 2 cancellation policies, you get paid respectively 30 and 60 days prior to arrival.

Airbnb Season Adjustment Feature:

Airbnb promotions are managed via the Season Adjustment Feature in the channel manager. In the Airbnb extranet, the feature is found in the Calendar module > rule-set

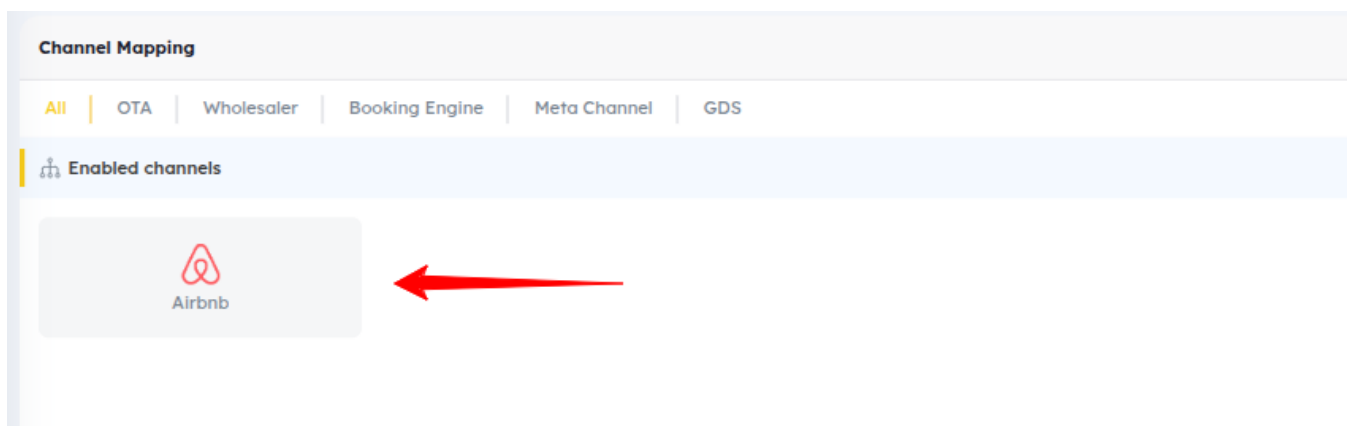

- **Some information:**

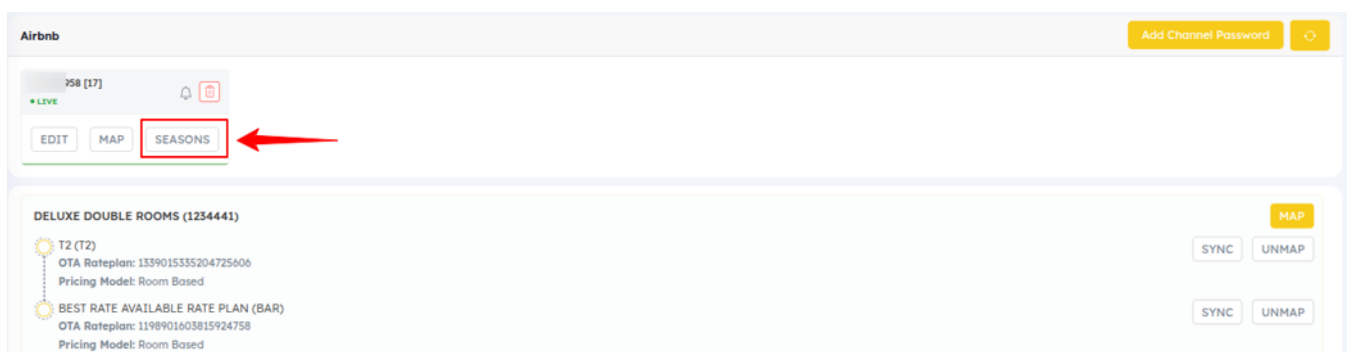

1. Once the property is API connected (with Channel Manager) Airbnb SmartPricing is not available, Instead property has to use "Airbnb Season Adjustment" feature in Channel Manager extranet to set season(s) and rules.
2. There is no option to pull in "Seasons and Rules" from Airbnb (if already set) Needs to be treated as a new setup via the Channel Manager extranet

Season Adjustment in Channel Manager:

- Log in to Channel Manager extranet > Channel Mapping > Click on Airbnb Mapping

- We can see the Season button beside the MAP Button.

How to add Season (s)?

To add > click on the Seasons button. Click on the Add Season

Note:

1. Seasons button is available in the Airbnb mapping module for all properties mapped.
2. For properties linked to the same Airbnb credential (chain), it is the same logic, however, when a season is added to any of the properties within the group, the season will automatically be added to the 'Airbnb Seasons' list for every property in the chain.
3. You can set up multiple rules for a season, for the same date range.
4. The system will allow you to set up a new promotion and rule with dates overlapping with an existing season with the same rule. There is no validation. When Airbnb receives the new promotion, it will automatically override overlapping dates with the newest season rule dates with the newest promotion rule.

Example:

- Promotion 1 = 01-30 April
- Promotion 2 = 15 April – 15 May
- From 01-14 April, Promotion 1 rules will continue to apply

- On the customer site, screenshot below. It will indicate the exact discount/ surcharge.
